## Présentification: Making the Invisible Visible

**Tuesday December 22<sup>nd</sup> at 7:00 pm**  
**Kīlauea Visitor Center Auditorium**

The park's new **Artist-in-Residence, Dr. Jean-René Leblanc**, presents images from Calgary, Hawai'i and Greece to contextualize the new body of work created during his residency. Through a series of images that explore the photographic act as an investigative process, Leblanc will share insight on the interrelation between creative impulse and the creation of photographic artifacts. Dr. Leblanc, a professor of fine arts at the University of Calgary in Alberta, Canada, incorporates infrared spectrum photography into his digital tableaux to "make the invisible visible."
